Customer Signature

TO DETERMINE LENGTH OF KILT

1. Roll up pant leg & kneel on the floor staying in an erect position
2. Have someone mark with a pen an inch from the floor on to the knee.
3. Stand up and take a tape measure from the top of the hip bone where the buckles of the kilt are going to fit. Put the tape at the top of the hip bone and measure straight down to the mark on the knee.
4. Our kilt makers will add the rise over your measurements.

TRADITIONAL FIT vs CONTEMPORARY FIT

The difference is where the kilt sits when you wear it. Traditionally a Kilt fits around your Waist. Contemporary Fit is meant to have your kilt fit where your pants normally sit a bit lower and possibly more comfortable for some.
